Subject: Daily Reports for Fri 8/24 -- PH PDI (Surface Water and Fish Tissue)

Attachments: [Daily Status Report\\_Portland Harbor\\_20180824\\_FishTissue.docx](#)  
[Daily Status Report\\_Portland Harbor\\_20180824\\_SurfaceWater.docx](#)

---

Hi Sean and Davis,

Attached are the daily reports from Fri 8/24 for surface water sampling (2 vessels) and fish tissue collection (2 vessels). Fish tissue is taking a break until after the Labor Day holiday, and surface water will be completing the low flow sampling event today (Sat. 8/25). Porewater peeper deployment activities started today as well, which will be detailed in the daily report sent tomorrow. Feel free to reach out with any questions, and have a good weekend.

Thanks,

**Kyle Vickstrom, E.I.**
